

Slitan® - stronger than steel

## Short facts

- UW-ELAST AB was founded in 1975 after having been a department of Perfoverken in Mariestad since 1962
- Scandinavia's leading manufacturer of solid cast and sprayed polyurethane products.
- Processing 300 tons of polyurethane/Year
- Celebrated 40 Year anniversary in May

**No.1 in  
Scandinavia**

# Business concept

UW-ELAST AB is an industry sub-contractor working with the production and procurement of polymer products with specific qualities, such as elasticity and durability.

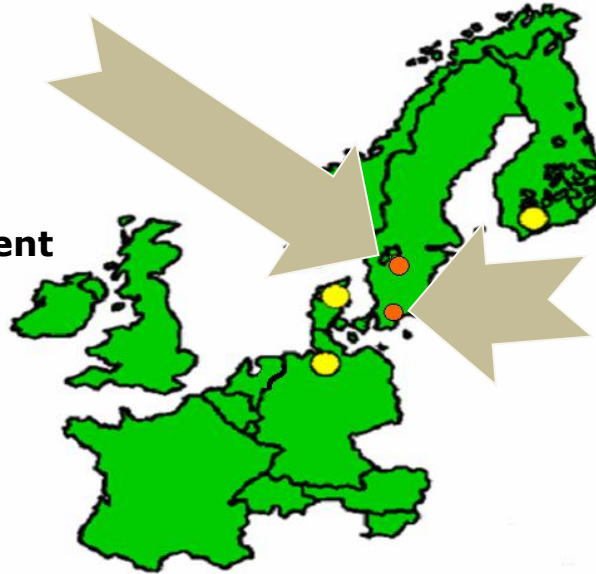

With extensive experience as a problem solver, great knowledge of materials and leading production methods, we design customized solutions and are involved from concept to finished product.

## Company structure

### ● UW-ELAST AB

(Mariestad, Sweden)

- Sales
- Technical support
- Research & development
- Quality assurance
- Logistics
- Manufacturing

### ● Production unit (Kareby, Sweden)

### ● Production unit (Traryd, Sweden)

# CHALLENGE ACCEPTED!

Solid polyurethane elastomers are the ideal construction materials. Thanks to the endless possible formulations, material properties can be tailored to answer almost all needs and requirements.

- Versatile design material
- Broad knowledge
- Solid experience
- Modern technology
- Everything from concept, design proposals, tool production and production.
- From prototype to full-scale manufacture.
- The most versatile and flexible production

# Industries

**Steel & Aluminium**

**Paper & pulp**

**Mining**

**Offshore**

**Engineering**

**Automotive**

**Wood**

**Logistics**

## Offshore

- Approved supplier to offshore companies
- Dynamic och statis bend stiffeners
- BR-elements, Cable drums, Wire clamps etc..
- In-house design department for design and calculation
